Digital Leakage Combo Kit DRV4 & DRV3 Lite

Continuous Ride-out and Find-and-Fix Meter

Ensure total quality for your OSP network and in-home shielding integrity testing. Easily find and fix the smallest, hardest-to-find sources of interference within your plant.

Solution

Our combined package **DRV4 / DRV3 Lite / DSG1 Lite or DSG1** ensures total quality for network and in-home installations, by tracking potential cable shielding integrity issues. It provides an effective and unique opportunity for the cable operators to pro-actively certify their HFC network before they turn into costly service calls.

The **DRV4** is a vehicle-based digital leakage receiver designed to operate in both digital and analog cable networks. Once combined with the **ARD4** autonomous recording device, it becomes a powerful, fully automated leakage monitoring platform that operates in the background while technicians drive their routes, without operator interaction. You can install it and forget it!

The **DRV3 Lite** combo kit is your dual-mode, dual frequency agile, all-digital leakage portable find-and-fix meter. It can operate either in 'pressure test mode', detecting high level carriers generated by the portable **DSG1 Lite** signal generator, or in 'system mode', detecting leakage carriers generated from the **DSG1** signal generator located at the head-end.

The technician can switch from system mode to pressure test mode by pressing a single button. With its lightweight dual-tuner design, the **DRV3 Lite** provides simultaneous visual and audible tone indication of detected leaks in the VHF and UHF bands.

Key Takeways

Complete leakage tool kit (ride-out and find-and-fix meter)

Fully agile 118-140 MHz (mid-band) and 600-860 MHz (LTE-band)

Cost-effective, portable dual-band leakage meter and signal generator (find-and-fix)

Bluetooth connectivity, Wi-Fi, cellular

Real-time RF level display of dual frequencies and full access to the web-based PNM management application

Available mobile application

Remote-PHY deployment ready

REQUEST A QUOTE Combo Kit Promotion

For the price of one combo kit you will benefit from our continuous ride-out and find-and-fix meter package. **Contact us** for a custom proposal.
